

Going Green for the Big Blue!

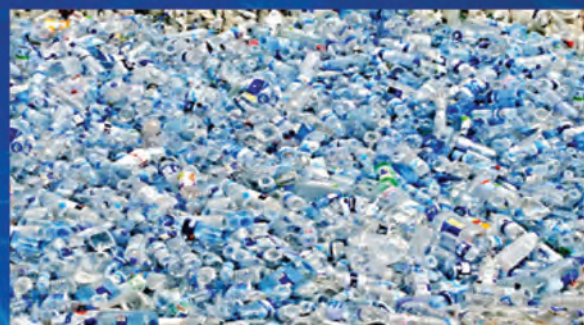

The Superyacht Cup has signed up as a Sailors for the Sea CLEAN REGATTA. One of our main objectives is cutting down on single use plastic bottles used onboard for racing. Changing habits is never easy, but with a bit of advance planning it can become easier, cheaper and will be a positive impact on the environment - protecting the waters we sail on.

- 1** Sign up to the Programme by emailing kate@thesuperyachtcup.com.
- 2** You will be given 20 FREE re-usable water bottles at Registration. More can be purchased for €2 per bottle (you may need double the number of crew).
- 3** Order your 18 Litre refill water containers (they can be delivered to SYC Dock) or if you drink your own water maker tank water even better!
- 4** Number each bottle (and lid) and allocate each crew member a number.
- 5** Rinse, fill and chill your re-usable bottles in the same way you chilled your previous water bottles.
- 6** Nominate a crew member to be in charge of HYDRATION. This person will collect, refill, chill and re-distribute the reusable bottles in just the same way you distributed your bottles previously, either in chiller bags, cooler boxes, deck fridges etc. Bottles can be cleaned in dishwasher or rinsed with sanitizer tabs. **HAVING A TEAM CHAMPION WILL ENSURE SUCCESS!**
- 7** Return large empty refill water bottles and exchange for full ones.

Let's do this...

to prevent this!

Help us keep the Balearics clean for this and future generations of sailors!
