

With the help of Southern Spars, the Superyacht Cup is proud to be a certified CLEAN REGATTA, in association with Sailors for the Sea.

One of our main objectives is to cut down on single use plastic bottles used onboard for racing.

That's why this year, together with Southern Spars, we are providing you with refillable water bottles - to help you protect the waters we sail on.

What do you have to do?

1. Sign up to the Programme by emailing kate@thesuperyachtcup.com.
2. You will be given 20 FREE re-usable water bottles at Registration. More can be purchased for €2 per bottle (double the number of crew may be needed).
3. Number each bottle and lid, and allocate each crew member a number.
4. Rinse, fill and chill your re-usable bottles in the same way you chilled your previous bottles.
5. Nominate a crew member to be in charge of hydration. This person will collect, refill, chill and re-distribute the reusable bottles. Bottles can be cleaned in the dishwasher or rinsed with sanitizer tabs.
6. Bottles can be refilled at our refill tent in the SYC village or at the bar for free.

**TAKE ACTION & HELP US
PROTECT OUR OCEANS.**
